September 1, 2024

Dear Wall Community,

Welcome to the 2024-2025 school year! We're thrilled to continue our journey with The 7 Mindsets curriculum and are eager to build on the success of our first year. Last year, we saw fantastic engagement through counselor-led classroom lessons, morning announcements, parent newsletters, and staff workshops, all designed to celebrate and reinforce each mindset. To get a comprehensive view of what we achieved, please take a moment to watch the presentation linked [HERE](#) and posted on our District website.

This year, we are excited to deepen our commitment with continued instruction and new initiatives. Our plan includes:

- School-wide activities to help students apply positive mindsets.
- "Wellness in the Works" parent newsletters.
- Monthly "Mindset Showcase" at Board of Education meetings to highlight our progress.
- Wellness Webinars for students in grades 3-8, facilitating real-time, grade-level discussions.
- A new 9th-grade transitional curriculum aligned with the mindsets.
- Student leadership opportunities, known as Mindset Mentors.
- Enhanced curricular connections through classroom instruction.

We will kick off the new year focusing on the mindset, **EVERYTHING IS POSSIBLE**. Join us for our first Mindset Showcase on September 17th during the Board of Education meeting at 7:00 PM at Wall Intermediate School.

Additionally, we remind you to join us at our first Family Night on September 5th from 5:30-7:00 PM at West Belmar School. Family Night is an opportunity for parents and children to socialize over dinner, win prizes, and learn about a topic aligned with health and wellness. The topic of September 5th is **WE ARE CONNECTED: Parent Partnerships & School Supports**. Please use this link [HERE](#) to learn more about the evening and reserve your spot at Family Night.

Looking forward to another impactful year together!

Warm regards,

Tiffany A. Steiner
Director of Intervention Programs and Student Wellness
