A Teacher to Remember

2024 Essay Contest

We are very proud of all of the 204 students who took the time to write about their teachers who have made such an impact on their lives!

We will be forwarding all of the essays that were written to each teacher who received an essay written about them.

The following are the winners by building, and the principals will be reaching out to these students to plan the appropriate tribute to that special teacher. They will be able to read their essay at the April 23, 2024 Board of Education meeting!

And here they are!

P.S. Don't tell them, we leave that honor to the Principals!
